Enterprise

organize, gerencie e otimize
os fluxos de triagem e
avaliação de artigos para
revisões sistemáticas de
literatura!

GUIA RÁPIDO

Fonte: <https://www.rayyan.ai/>

rayyan **Enterprise**

É uma plataforma *web* colaborativa para organização e gerenciamento de revisões sistemáticas de literatura que, dentre outras facilidades, otimiza as etapas de deduplicação, triagem e avaliação dos artigos.

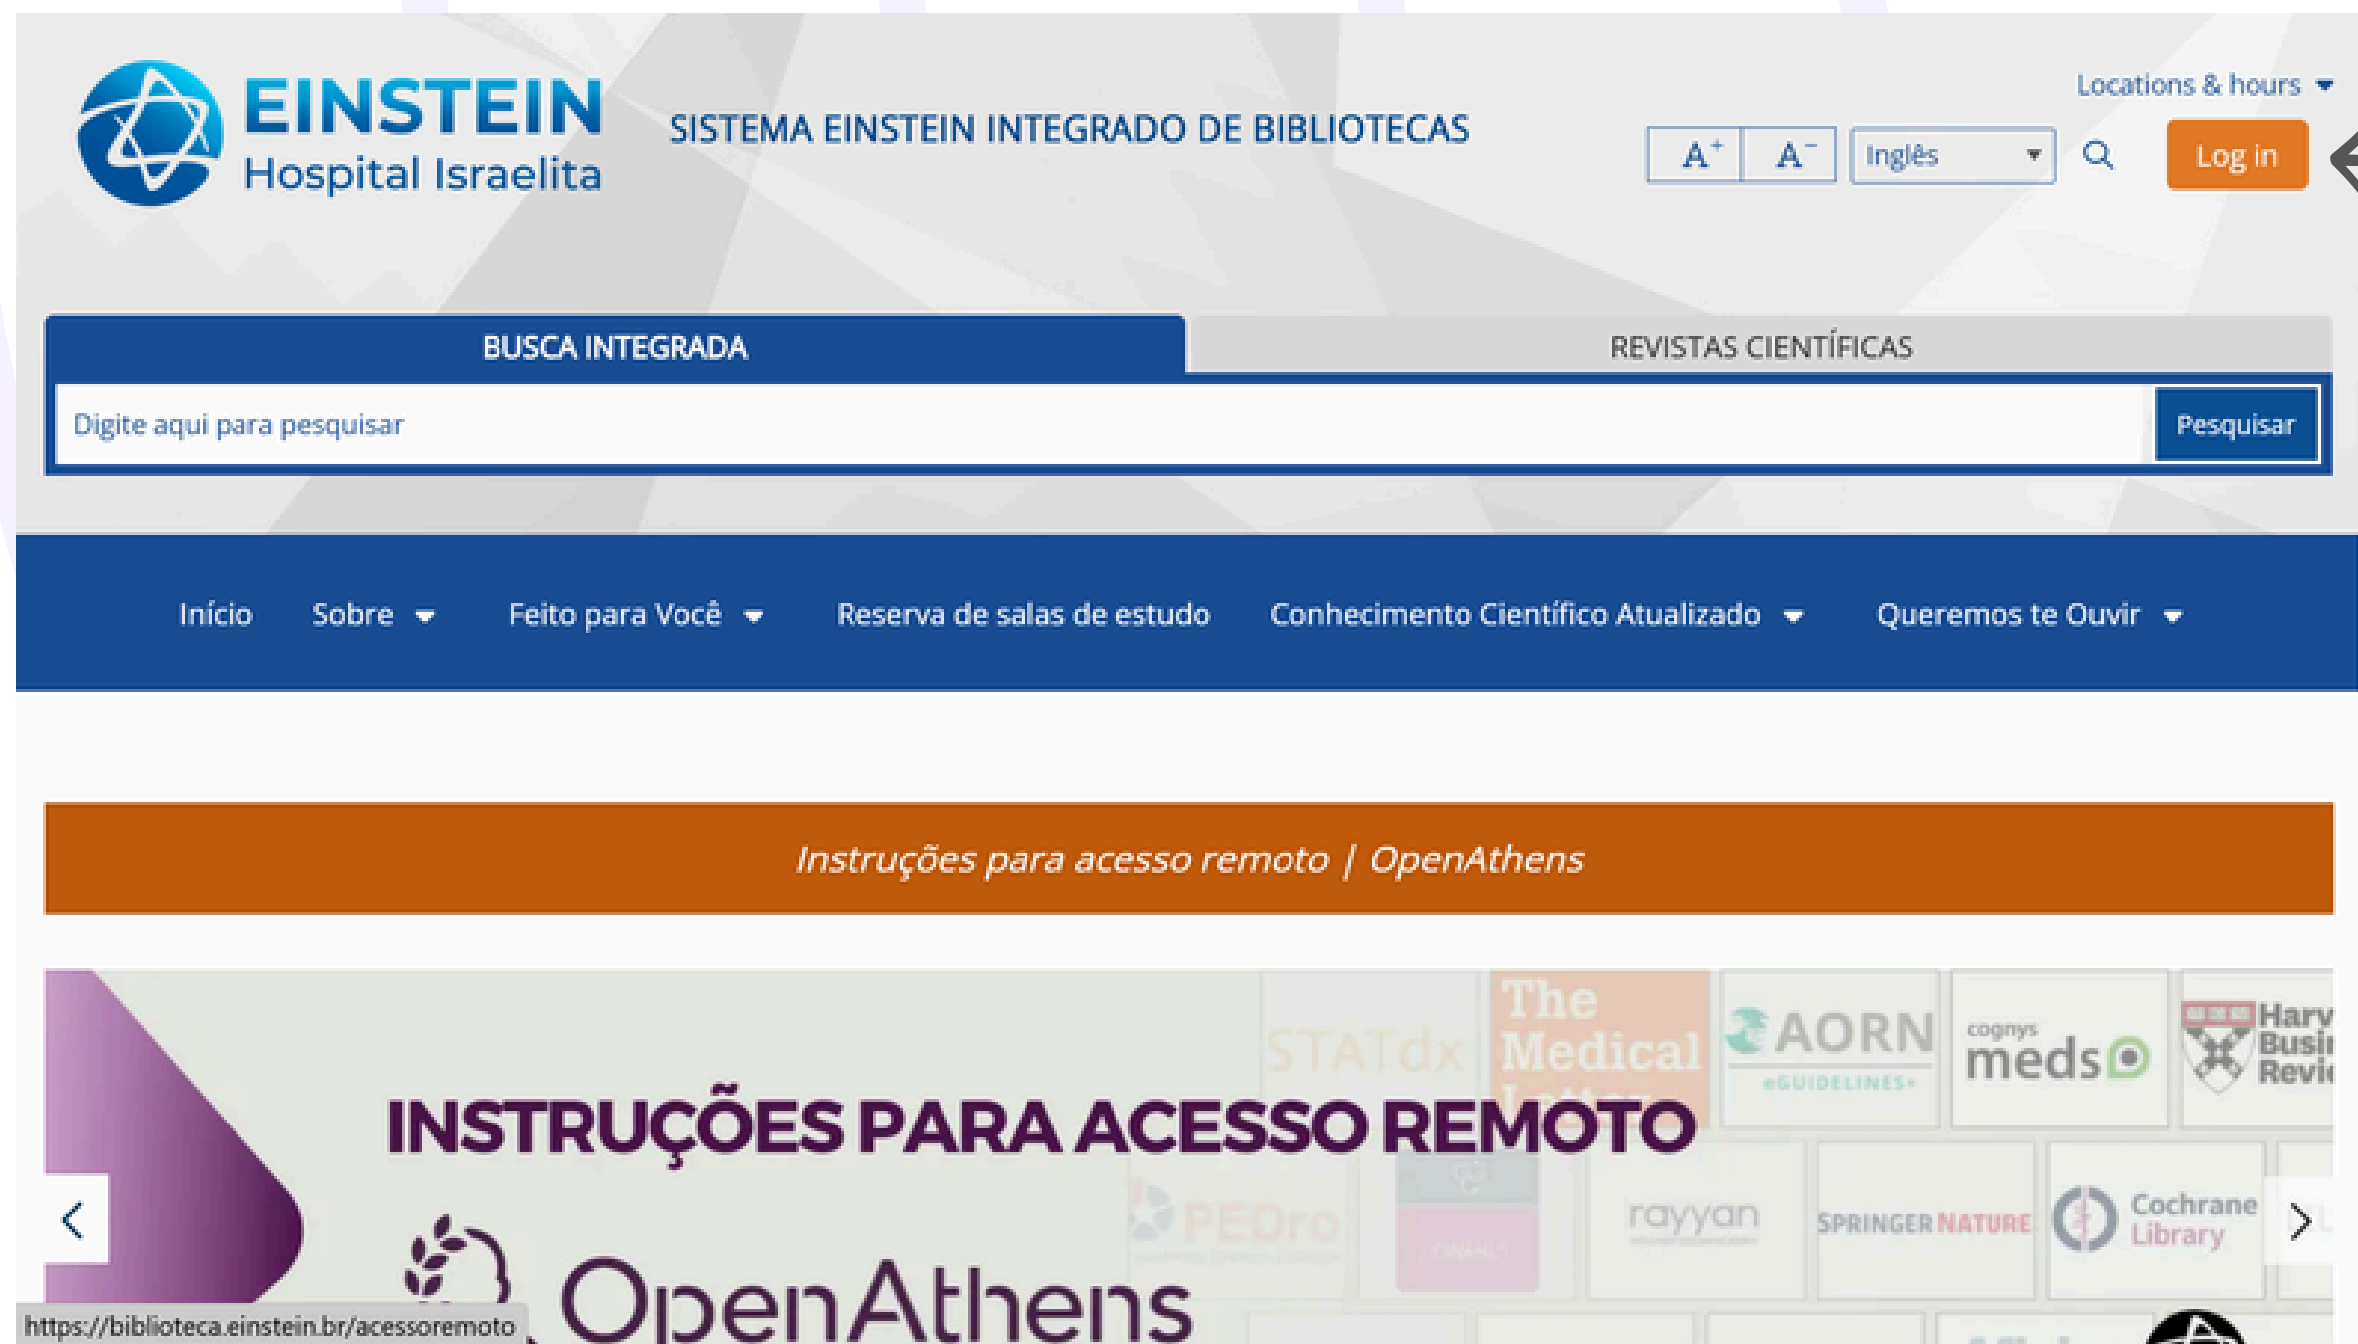

Este guia rápido fornece os primeiros passos para utilização da plataforma *rayyan Enterprise* e instalação da *versão por aplicativo móvel* a partir de sua conexão com o *Sistema Einstein Integrado de Bibliotecas (SEIB)*!

Crie sua conta

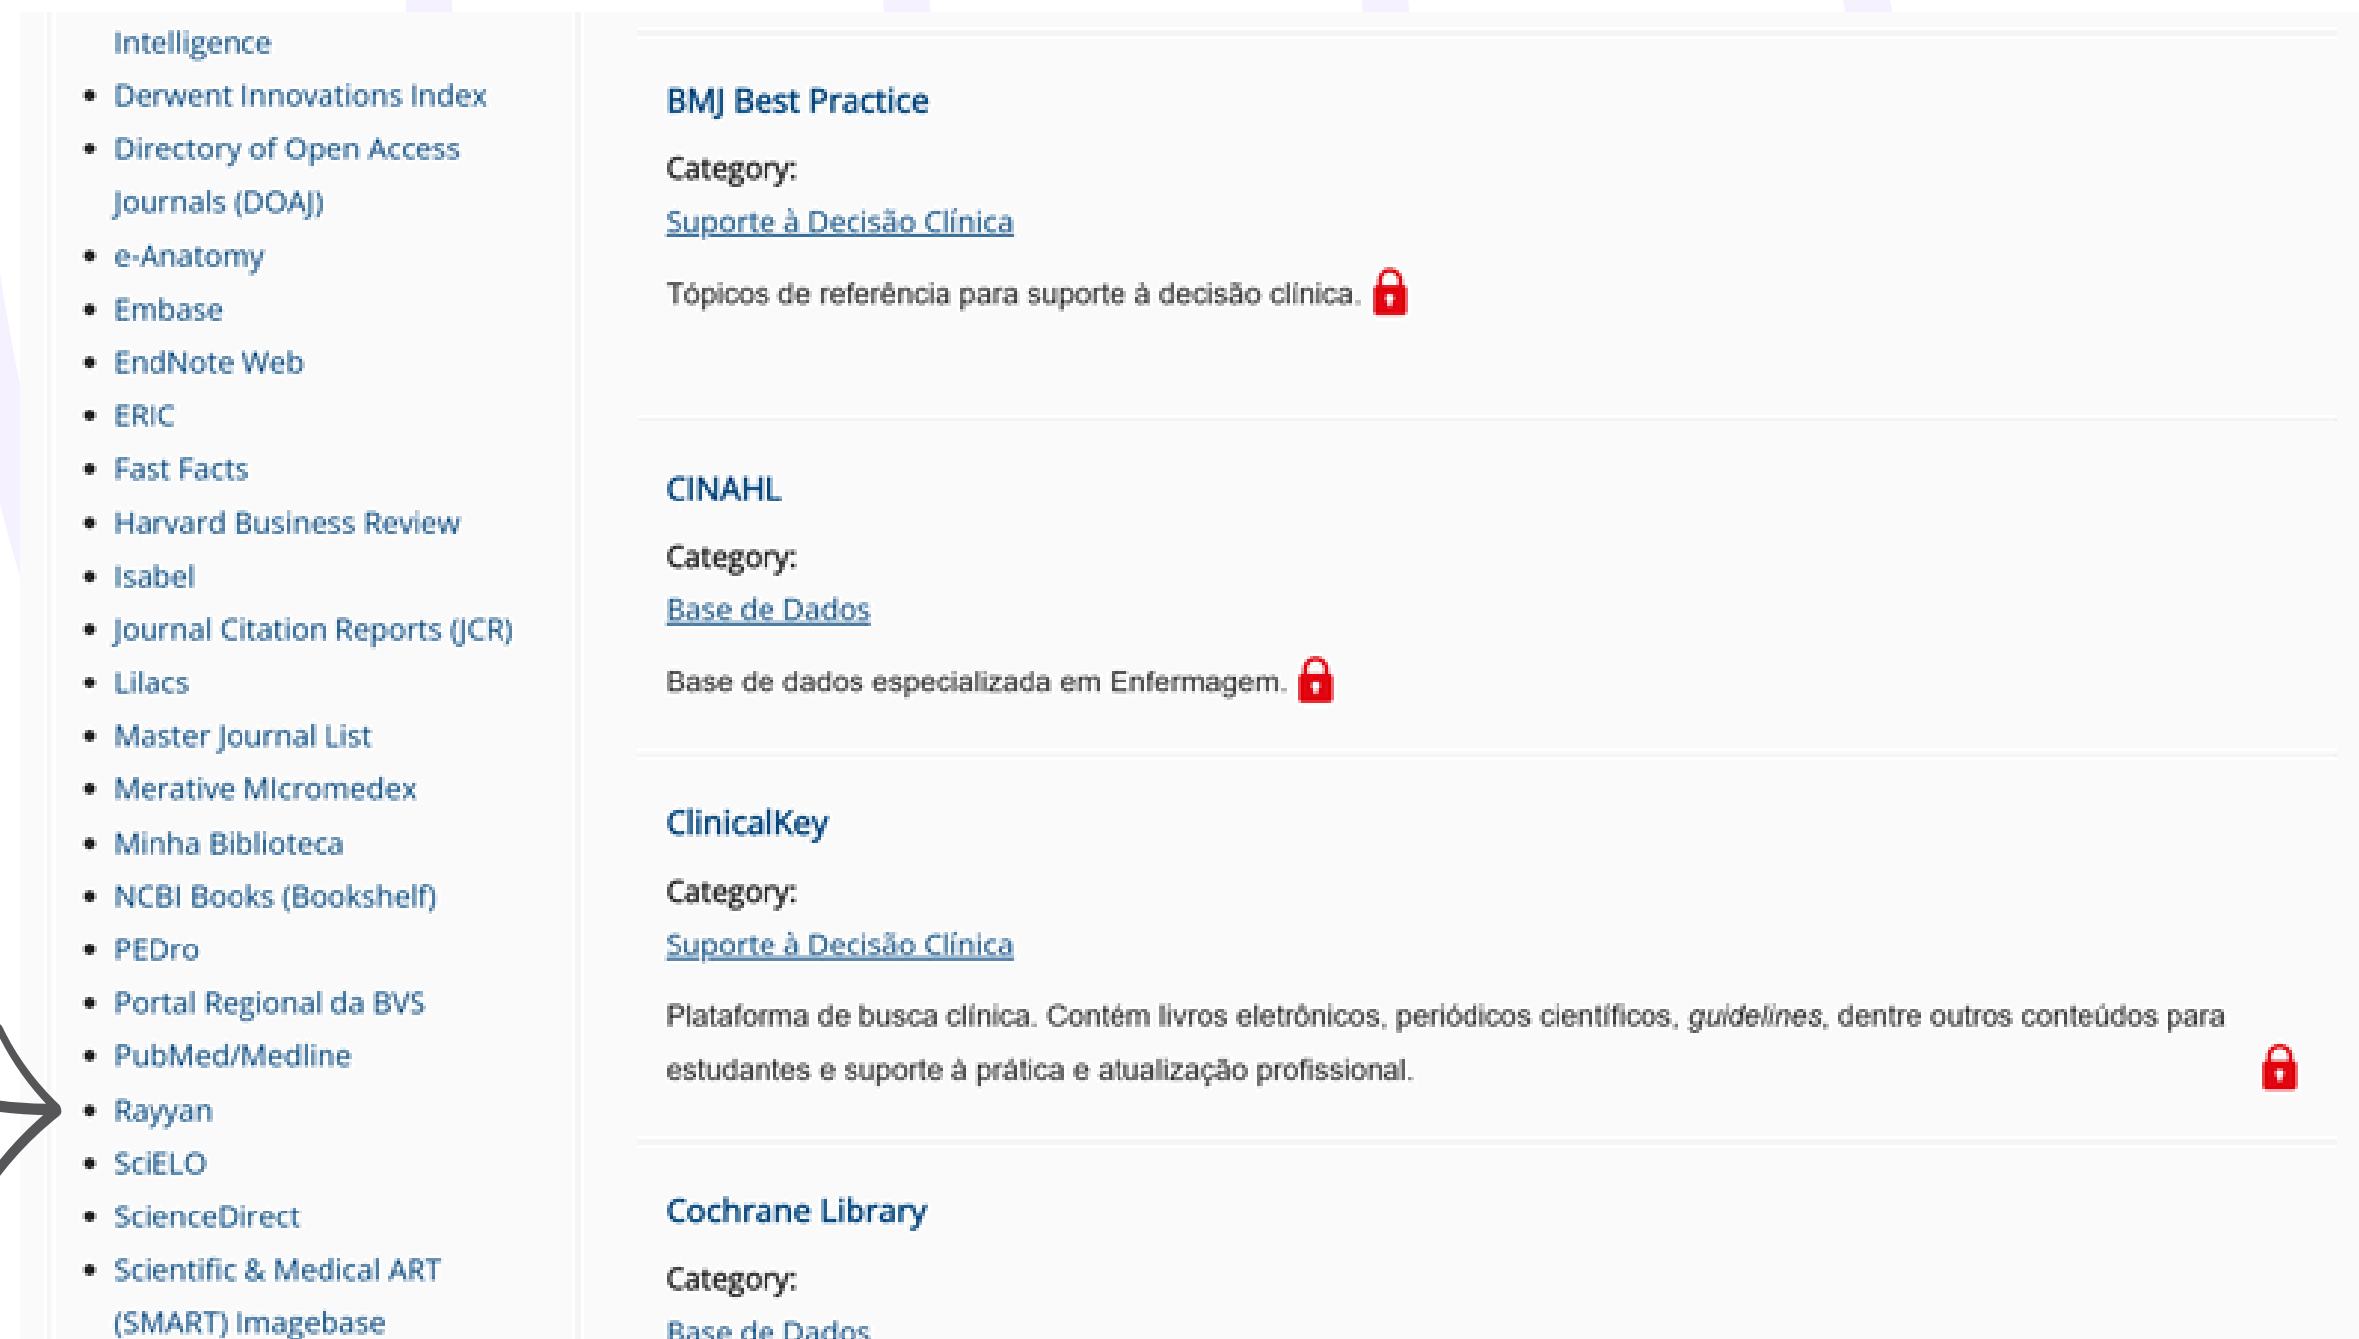

1. Acesse biblioteca.einstein.br
2. Siga as instruções para acesso remoto [OpenAthens](#) > biblioteca.einstein.br/acesso remoto
3. Clique em [Recursos Eletrônicos](#)
4. Clique em [Rayyan](#)
5. Faça *login* com seu e-mail [xxxxx@einstein.edu.br](#) ou [xxxxx@einstein.br](#)
6. Aceite os [termos de uso](#)

The screenshot displays the Einstein Hospital Israelita library website. At the top left is the Einstein logo and the text "EINSTEIN Hospital Israelita". To the right is the text "SISTEMA EINSTEIN INTEGRADO DE BIBLIOTECAS". Further right are links for "Locations & hours", font size controls (A⁺, A⁻), a language dropdown set to "Inglês", a search icon, and an orange "Log in" button. A red arrow points to the "Log in" button. Below the header is a navigation bar with tabs for "BUSCA INTEGRADA" and "REVISTAS CIENTÍFICAS". A search bar with the placeholder "Digite aqui para pesquisar" and a "Pesquisar" button is located below the tabs. A dark blue navigation bar contains links: "Início", "Sobre", "Feito para Você", "Reserva de salas de estudo", "Conhecimento Científico Atualizado", and "Queremos te Ouvir". Below this is an orange banner with the text "Instruções para acesso remoto / OpenAthens". The main content area features a large banner for "INSTRUÇÕES PARA ACESSO REMOTO" with the OpenAthens logo and a URL: "https://biblioteca.einstein.br/acessoremoto". To the right of the banner are various database logos including STATdx, The Medical Letter, AORN, cognys meds, Harv Busin Rev, PEDro, rayyan, SPRINGER NATURE, and Cochrane Library.

Review Terms of Service

Signed in successfully. Kindly complete your profile.

Please accept the terms of service to continue. If you choose to reject the terms, your account will be deactivated.

- Data recovery measures and emergency plan in place and regularly tested
- Implementation of state-of-the-art backup methods such as: tape backup, data mirroring, and so on.
- Physical separation of the back up data. Data stored in the archive is saved using redundant systems.
- Uses a combination of full, differential, and cumulative backups to ensure data integrity and timely restoration
- Backup tapes are securely stored both on-site and off-site to provide protection against disaster and efficient data recovery
- Data is stored redundantly on multiple devices
- Integrity of stored data periodically verified

8. Separation and Purpose

The Data Processor shall take, among others, the following technical and organizational measures in order to ensure that data collected for different purposes are processed separately:

- Implementation of an authorization concept
- Logical separation of electronically stored customer data (on the software side) to ensure that each client's data is isolated from any other client's data
- A container architecture is in use

Gerencie sua revisão

1. Detecte e resolva as **duplicidades**
2. Insira os **critérios de inclusão e exclusão** definidos em protocolo de pesquisa
3. Realize **reunião com revisores** para nivelamento de conhecimento sobre a plataforma rayyan, alinhamento da função de cada revisor e entendimento dos critérios para triagem e avaliação dos artigos

The screenshot shows the Rayyan RMC interface for a review titled "Workplace violence against nurses: a umbrella review". The top navigation bar includes tabs for Overview, Review data, Screening, Full text screening, and Data extraction. The Overview tab is active, showing a "Review Info" section with details like Review Title, Review Type (Literature Review), Review Domain (Other), and a Description placeholder. Below this is the "Data Summary" section, which displays four key metrics: Imported References (35), Total Duplicates (16), Unresolved (16), and a table for Resolved (0), Not Duplicate (0), and Deleted (0). Each metric has a corresponding button: "Add References", "Detect Duplicates", "Start Resolving", and a table with "Resolved", "Not Duplicate", and "Deleted" buttons. A notification banner at the bottom left indicates "Detect Duplicates" is finished, with 16 duplicates found. A curved arrow points from the "Detect Duplicates" button to the notification banner. The top right corner shows a "Need training?" button, a progress indicator (0), and a "Screening criteria" button. The bottom right corner has a "Quick guide" button (3/5).

Quick guide 3/5

As referências indicadas como duplicadas serão visualizadas em tela dividida. Se duplicado, selecione a referência com os dados mais completos. Se não, mantenha as duas referências clicando em *Keep Both Articles*.

A função Run Auto Resolver automatiza este processo.

Ao utilizar a função *Auto Resolver* selecione o “DOI” como critério para detecção e exclusão das duplicidades. Clique em *Resolve*.

Continue resolvendo as duplicidades se o rayyan não conseguir resolver todas as referências de forma automática com base no critério definido.

The image displays two screenshots of the Rayyan RMC interface, illustrating the process of managing screening criteria for a systematic review titled "Workplace violence against nurses: a umbrella review".

Left Screenshot: The "Screening (Blind On)" tab is active. The "Screening Criteria" section shows the "Inclusion Criteria" tab selected. Below the tab, there is a button labeled "Add screening criteria" with the text "By setting your criteria, you'll quickly discover the most relevant and impactful articles, ensuring a transparent and bias-free process." Below this, a list of criteria is displayed:

1. Literature review (systematic review, meta-analysis,
2. Violence against nurses (patients, families)
3. Workplace violence

The "Your Progress" section shows a progress bar and the text "You didn't start screening yet!". The "Screening Summary" section shows "0 Conflicts".

Right Screenshot: The "Screening (Blind On)" tab is active. The "Screening Criteria" section shows the "Exclusion Criteria" tab selected. Below the tab, there is a button labeled "Add exclusion criteria" with the text "By setting your criteria, you'll quickly discover the most relevant and impactful articles, ensuring a transparent and bias-free process." Below this, a list of exclusion criteria is displayed:

1. Violence out workplace
2. Violence perpetrated by nurses
3. Violence perpetrated by colleagues, leaders, supervisors

The "Your Progress" section shows a progress bar and the text "You didn't start screening yet!". The "Screening Summary" section shows "0 Conflicts" and "0% Aligned". A "Quick guide" button is visible in the bottom right corner of the "Screening Summary" section.

Violencia laboral y su efecto en enfermeras a nivel hospitalario: Una revisión sistemática

Abstract:
OBJETIVO: Identificar efectos de la violencia laboral en enfermeras a nivel intrahospitalario y las estrategias de afrontamiento y prevención de violencia laboral entre enfermeras.
MÉTODO: Revisión bibliográfica sistemática cualitativa. Se analizaron artículos publicados en las bases de datos PUBMED, Science Direct, Scielo y LILACS. La estrategia de búsqueda se realizó mediante descriptores en Ciencias de la Salud (DeCS) y el Medical Subject Headings (MeSH) con el operador booleano AND. Se utilizó el diagrama de flujo (PRISMA). La evaluación de la calidad metodológica se realizó mediante las fichas de lectura crítica disponibles en la Plataforma FLC 3.0. RESULTADOS: la violencia y el acoso laboral tienen efectos negativos sobre la salud física y mental, las relaciones interpersonales y en el desempeño laboral de los enfermeros. Entre las estrategias de afrontamiento de la persona que sufre violencia laboral se encuentran el análisis del problema, hablar con alguien de confianza, enfrentar al acosador e involucrar al sistema. Las medidas de prevención a nivel organizacional destacan las capacitaciones, la mejora de normas, establecimiento de sanciones al acosador y la vigilancia de estas situaciones. CONCLUSIÓN: La violencia laboral no solo repercute a la persona afectada, sino también a todo el sistema organizativo en salud. Se enfatiza la importancia de desarrollar medidas y estrategias preventivas de la violencia y acoso laboral. OBJECTIVE: To identify the effects of workplace violence on nurses at the intrahospital level and the coping strategies and prevention of workplace violence among nurses. METHODOLOGY: Qualitative systematic
